PREFACE

This Manual has been prepared by Company2 for use of their Falcon 900 Aircraft to operate in Category 2 operations under Federal Aviation Regulation (**FAR**) Part 91. It has been prepared using FAA Advisory Circular (**AC**) 91-16, dated August 7, 1967, as a guide to present the aircraft manufacturers recommended procedures for the Falcon 900EX in Category 2 operations. The following aircraft are authorized to conduct operations in accordance with this manual.

N9999, Serial No. XXX

The following is a reference list of FAA publications referring to Category 2 operations.

A. Federal Aviation Regulations

1. **Pilot Certification**

- Part 61.3 Requirement for certificates ratings and authorization.
- Part 61.13 Application and qualification.
- Part 61.21 Duration of Category II and III pilot authorization.
- Part 61.68 Category III pilot authorization requirements.

2. **General Operation and Flight Rules**

- Part 91.175 Takeoff and landing under **IFR**.
- Part 91.189 Category II and III operations: General Operating Rules.
- Part 91.191 Category II and III manual.
- Part 91.205 Powered civil aircraft with standard category U.S. airworthiness certificates; instrument and equipment requirements.
- Part 91 Appendix A Category 2 Operations: Manual, Instruments, Equipment, and Maintenance.

B. Advisory Circular

- 1. AC No. 120-28 Criteria for Approval of Category III Weather Minima for Takeoff, Landing, and Rollout.

Throughout this manual, the phrases, he, she, we, her, and his are all used interchangeably with no differentiation to gender, race, creed or color.
